

F E A T U R E S

The Anti-icing application system is designed to slide in-to medium and heavy duty dump trucks with an inside box width of 83" or greater. This system is available with tank capacities ranging from 735 gallons up to 3400 gallons, and come standard with a galvanized steel frame and glass filled polypropylene fittings for years of dependable use. The self-loading leg kit, Baffle Ball system, and automatic rate controllers can all be added to make this a truly turn-key package.

- **Extra Heavy Duty U.V. Stabilized Tank**
Able to accurately apply high specific gravity liquids.
- **Optional Tank Baffling**
Improved vehicle stability with less material movement.
- **Flanged Tank Fittings**
Fast and easy maintenance of worn or damaged fittings.
- **Available 1, 2, or 3 Lane Stainless Spray Booms**
Perfect solution for mounting in compact areas.
- **Hydraulic or Gas Driven Centrifugal Pump**
Pre-engineered mounting system fits the most popular truck boxes.
- **Galvanized Steel Frame**
Ensures long service life with high use applications.
- **Optional Electronic Flow Meter**
Accurately measures dispersed material with the use of a closed loop spreader control.
- **Optional Self-Loading Legs**
Easier loading and unloading, providing an excellent means of off season storage.
- **Optional Automatic Rate Controllers**

3-lane Anti-Icing Unit with optional self-loading legs (shown)
